SIN 246-52 Professional Security/Facility Management Services  
Labor Rate: \$126.74

**Position Title: TSCM Counterintelligence Specialist I**  
**Part No. TSCM-I**

**Minimum/General Experience:** TSCM Counterintelligence Specialist I will conduct a wide variety of Technical Surveillance Countermeasures (TSCM) missions to include pre-construction advice and assistance reviews, inspections and evaluations, investigations, in-conference monitoring services, in-place monitoring system (IPMS) operation, VIP travel support, residential support, and vehicular support missions. Provide research and direct technical support to TSCM management that involves physical and technical security to new facility construction, modification, accreditation, re-accreditation, and withdrawal. Schedule and perform TSCM missions and security staff assistance visits in support of facilities, activities, and travel missions located world-wide. Provide comprehensive, risk-based technical security advice, guidance, and general security support to supported offices and activities. Prepare written correspondence and after action reports to include TSCM inspection findings and recommendations reports, analytical reports, technical security awareness briefings, technical briefings, and vulnerability reports. Conduct analysis of complex technical, surveillance, counter-surveillance, surveillance detection or other technical vulnerabilities. Operate a wide variety of TSCM hardware, software, firmware, and component detection systems to maximize the probability of detecting a wide variety of concealed/covert surveillance equipment and techniques.

**Functional Responsibility:** Operate highly complex TSCM equipment, systems and components in support of all missions designated by the cognizant Director of Security or designated official. Support physical, technical and procedural efforts to detect and nullify a wide variety of technologies used to gain unauthorized access to classified national defense information, restricted data, or otherwise sensitive information. Facilitate the exchange of technical security information between commercial, government, law enforcement and corporate entities; recommend input to TSCM training programs, and participate to the maximum extent possible in TSCM exercises and training opportunities. Prepare input for technical security briefings and security awareness programs. Liaison with senior security officers, member of the law-enforcement community and other security agencies as required. Travel worldwide as required in support of fixed and travel TSCM missions, Sensitive Compartmented Information Facility (SCIF) and Temporary Security Working Area (TSWA) reviews, investigations, and security briefings. Assist in the development of technical security plans, scheduling, and equipment testing and calibration. Provide technical support to all TSCM, TEMPEST, and Counterintelligence functions to include administrative, training, logistics, procurements, and general counterintelligence investigations. Monitor mission schedules and event planning. Maintain a high degree of TSCM knowledge of all Federal TSCM governing directives to include but not limited to ICD 702 and ICD-705, ICS 705-1 ICS 705-2 directives and standards.

**Minimum Education:** A High School Diploma or a General Equivalency Diploma (G.E.D.) is required and at least 4 years of job related experience in one of the following areas: counterintelligence, investigations, industrial security, TSCM investigations, VIP travel support, policy and security standard development, OPSEC, INFOSEC, security countermeasures programs, access systems operation and management, personnel protection and protecting classified information. With 8 years of specialized experience a degree is not required. Knowledge of NISPOM and, national and international security requirements. ITC Fundamentals Course Graduate. Understanding of and experience-based familiarity with corporate and/or U.S. Federal Government and DoD agencies and their security practices.
